

MOLCAS workshop announcement 2008

In 2006 the MOLCAS group had the 1st MOLCAS workshop in Valencia, Spain, with 21 students. For 4 intensive days students, beginners to advanced users, were lectured and instructed in computer labs by the MOLCAS developers on how to use the MOLCAS quantum chemistry package. The following year, 2007, the 2nd MOLCAS workshop took place in Villars, Switzerland, with an attendance of 36 students. On request the 3rd and 4th MOLCAS workshops will take place this year. The 3rd MOLCAS workshop will be held in Lund, Sweden, 20-23 April. The 4th MOLCAS workshop will be held in Bojnice, Slovakia, 9-13 June. Both of the workshops are now open for registration at

the 3rd MOLCAS workshop: <http://www.lunarc.lu.se/Courses/molcas-workshop>

the 4th MOLCAS workshop: <http://www.teokem.lu.se/molcas/wsh/2008/>

We also invite you to visit the MOLCAS workshop web site (<http://www.teokem.lu.se/molcas/wsh/>). Here and on the two other URLs you can find more information about the past and the future workshops. We look forward to see you in Lund or Bojnice.

On behalf of the teachers I welcome you all!

Sincerely,

Roland Lindh
